

Ice Strengthened Logistics Transport Vessel

The arrangement of the vessel provides for a Helicopter landing pad aft capable of handling two medium size helicopters. Also comfortable accommodation space for crew and passengers. Good maneuverability during mooring is provided by a bow thruster unit. The vessel also has a cargo hold capacity of 2,000m³ c/w with cargo handling crane on fore deck.

PRINCIPAL PARTICULARS:

Length overall	103.0 m	337'-11"
Length waterline	97.0 m	318'-2"
Breadth molded	17.0 m	55'-9"
Design draft	5.5 m	18'-0"

CLASSIFICATION:

ABS ✕A1, ✕AMS, Passenger Vessel Ice Class 1B

PERFORMANCE:

Installed power	5,279 kW	7,080 hp
Maximum speed	18.0 kn	
Endurance	20 days	

COMPLEMENT:

A total of 335 persons
