

VARD 7 506
Landing Craft

- The VARD 7 506 is a landing ship designed for the projection and support of forces, amphibious operations and landing, support of maritime special ops, patrol of EEZs, and humanitarian assistance. The vessel is fitted with combination watertight bow and stern ramps providing access to an open RoRo deck. Vehicles are loaded at the pier via the stern ramp and the bow ramp facilitates landing vehicles on shore.

It is equipped with a fast response craft on the starboard side of the vessel to facilitate boarding operations and to be used to muster liferafts in an emergency scenario. An asymmetrical bridge provides full RoRo drive through capabilities.
